發文字號：施羅德業字第 110041 號

附件：如文

主旨：茲通知本公司總代理之施羅德環球基金系列(「境外基金公司」)，為符合
歐盟永續金融揭露規則(Sustainable Finance Disclosure Regulation, SFDR)，
修改公開說明書中部分基金之投資目標及政策，詳後說明，請 查照。

說明：

- 一、 針對符合歐盟永續金融揭露規則(SFDR)第 8 條及第 9 條之基金，境外基金公司已將該等基金如何實現該目標或達到該等特性之詳細說明載於公開說明書附件 III 中各基金詳情之基金投資政策，並於基金特色中新增之「永續性標準」一節。有關符合第 8 條及第 9 條基金修訂後之投資目標及政策文字請詳附件「境外基金公司致股東通知信函」。
- 二、 針對符合 SFDR 第 6 條範疇之基金(即非符合第 8 條及第 9 條之基金)，其原投資政策中提及有關重大環境、社會及公司治理等因素考量之敘述均已刪除，另於公開說明書新增如何將永續性風險納入考量之相關說明取代。
- 三、 謹請 查照轉知。

總經理 謝誠晃

本信函為境外基金公司致股東通知信之中文摘要，文義如與英文版股東通知信有任何差異或不一致的地方，請以英文版本為準。

施羅德環球基金系列 – 永續金融揭露規則（下稱「SFDR」）

親愛的股東：

茲致函通知您，為遵守SFDR之新規定，施羅德環球基金系列（下稱「本公司」）公開說明書中若干基金之投資目標與政策業經更新。

依據SFDR，永續性基金應依下列二個新類別進行分類：

第8條 – 具有必須遵守的環境及／或社會特性之基金；及

第9條 – 以永續投資為目標之基金。

本函附件記載本公司符合第8條與第9條之基金修訂後之投資目標及政策文字，有關此附件得參閱 www.schroders.com/en/lu/private-investor/fund-centre/fund-notifications/schroder-isf/。

此變更意在闡明該等基金目前之管理方式，而該等基金之其他主要特性均維持不變。

該等基金之投資風格、投資哲學、投資策略、投資操作及／或管理方法，於此等闡明後皆無變更。

本公司公開說明書進一步指出，若基金的投資政策規定，與指定的基準相較，基金將達到特定的永續性評分（無論是整體上，或與特定的衡量標準例如碳強度等相較），除非另有說明，否則並不代表基金受到該基準的限制，亦不代表基金試圖實現相應於該基準的財務報酬。此處所指之基準，不應視為基金的參考基準。

就以永續投資為目標、或具有環境或社會特性的基金而言，有關其如何實現該目標或達到該等特性之詳細說明，載於公開說明書之相關基金詳情中基金之投資政策及於基金特色中所新增之「永續性標準」一節，並揭露於附件，亦可參閱 www.schroders.com/en/lu/private-investor/fund-centre/fund-notifications/schroder-isf/。

非符合第8條、第9條之基金，由於落入SFDR第6條之範疇，其投資政策中提及有關重大環境、社會及公司治理等因素考量之敘述均已刪除，以符合SFDR之規定。反之，有關本公司於管理所有基金時如何將永續性風險納入考量，已於公開說明書新增更詳細之說明。請注意，無論如何，本公司皆會將環境、社會或公司治理標準（連同其他因素），納入整體風險管理程序中予以考量。

Schroder International Selection Fund – Sustainable Finance Disclosure Regulation (“SFDR”)

Dear Shareholder,

We are writing to advise you that the investment objectives and policies of some funds in the prospectus of Schroder International Selection Fund (the “Company”) have been updated in order to comply with new requirements imposed by the SFDR.

The SFDR rules require that sustainable funds are classified under one of two new categories:

Article 8 – funds which have binding environmental and/or social characteristics

Article 9 – funds which have the objective of sustainable investment

The Appendix to this letter, which can be viewed at www.schroders.com/en/lu/private-investor/fund-centre/fund-notifications/schroder-isf/ shows the updated investment objective and policy wording in respect of each of the Company's Article 8 and Article 9 funds.

The changes are intended to clarify the way in which the funds are currently managed. All other key features of the funds will remain the same.

There is no change in the funds' investment style, investment philosophy, investment strategy, and the operation and/or manner in which the funds are being managed following these clarifications.

The prospectus of the Company further indicates that where a fund's investment policy states that the fund will achieve a certain sustainability score (whether overall, or in relation to a particular measure such as carbon intensity) compared to a named benchmark, this does not mean that the fund is constrained by, or seeks to achieve a financial return relative to that benchmark unless otherwise stated. Any benchmark named in this context should not be treated as a reference benchmark for the fund.

For any fund that has the objective of sustainable investment or has environmental or social characteristics, details of how the fund attains that objective or those characteristics are disclosed in the relevant Fund Details of the prospectus, in the fund's investment policy and under a new section “Sustainability Criteria” in the Fund Characteristics section, as further disclosed in the Appendix, which can be viewed at www.schroders.com/en/lu/private-investor/fund-centre/fund-notifications/schroder-isf/.

For funds other than the Article 8 and Article 9 funds, references to the consideration of material environmental, social and governance factors have been removed from the investment policies for consistency with the requirements of the SFDR as they fall under the scope of Article 6 of SFDR. Instead, a more detailed explanation has been added to the prospectus to explain how we take sustainability risks into account in the management of all funds. Please note that we in any case take environmental, social or governance criteria (alongside other factors) into consideration in the overall risk management process.

If you have any questions or would like more information about Schroders' products please contact your local Schroders office, your usual professional adviser, or Schroder Investment Management (Europe) S.A. on (+352) 341 342 202.

		<p>Sustainability Criteria</p> <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>Companies held by the Fund are expected to show a commitment to their stakeholders, including customers, employees, suppliers and regulators. The Fund invests in those companies which consider stakeholders fairly and have good governance.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile, across a range of factors. The Investment Manager performs its own due diligence on all potential holdings including, where possible, meetings with senior management.</p> <p>This analysis is supported by quantitative analysis gained from Schroders' proprietary sustainability tools. Such are key inputs to measure how companies in the portfolio are meeting the sustainability credentials outlined above. The Investment Manager aims to ensure that at least 75% of the Fund's individual holdings have a positive sustainability score relative to the benchmark stated in the investment policy.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. Global Climate Change Equity	<p>Investment Objective The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide which the Investment Manager believes will benefit from efforts to accommodate or limit the impact of global climate change.</p> <p>Investment Policy The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.</p> <p>The Investment Manager believes that companies that recognise the threats and embrace the challenges early, or that form part of the solution to the problems linked to climate change, will ultimately benefit from long term structural growth which is underappreciated by the market. We expect these companies to outperform once the market recognises these stronger earnings growth dynamics.</p> <p>The Fund is managed with reference to material environmental, social and governance factors. 		<p>company is assessed on a number of factors which include but are not limited to:</p> <p>If the company has significant direct industry exposure to climate change trends (mitigation – reducing greenhouse gas emissions through energy efficiency, renewable power, and cleaner vehicles; or adaptation - those that are preparing for the impacts of climate change, for example water stress, coastal flooding, community health issues, or supply chain disruptions, among other issues).</p> <p>The proportion of business segments that are potentially exposed to climate change trends.</p> <p>If the company has significant investment and research and development spending related to the transition to a lower carbon economy.</p> <p>A product portfolio that takes into account the physical and transition risks posed by climate change.</p> <p>The impact on the company of rising carbon costs in the context of its industry and competitive environment.</p> <p>The Investment Manager will then decide on a case by case basis whether a company is eligible for inclusion in the Fund's investment universe, based on this assessment. In addition, the Investment Manager's ESG analysis seeks to evaluate the materiality and impact of a range of ESG factors on the sustainability of future earnings growth and as potential risk factors that may affect a company's valuation. The Investment Manager's decision will focus on ratings in the areas that are most relevant to the particular business of that company.</p> <p>The Investment Manager performs its own analysis of information provided by the companies, including information provided in company sustainability reports and other relevant company material. The research draws information from a wide variety of publicly available corporate information and company meetings, broker reports and outputs from industry bodies, research organisations, think tanks, legislators, consultants, NGOs and academics. Third party research is used as a secondary consideration, and generally provides a source of challenge or endorsement for the Investment Manager's proprietary view.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. The Fund typically holds fewer than 60 companies.</p> <p>The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.</p> <p>The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.</p> <p>Sustainability Criteria</p>
--	---	--

		<p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>Companies are assessed against eight ESG criteria: (1) management quality; (2) balance sheet sustainability; (3) corporate governance; (4) regulatory risk management; (5) supply chain management; (6) customer management; (7) employee management; and (8) environmental management. The company will receive an overall score out of ten and is placed within one of the following categories based on this score:</p> <ul style="list-style-type: none"> • ‘Lagging’ (score of 1 – 3): Companies that show poor corporate governance, unconvincing management, weak balance sheets, poor stakeholder relations, and fail to demonstrate an awareness of ESG issues they face. • ‘Neutral’ (score of 4 – 6): Companies that show adequate corporate governance, suitable management, reasonably robust balance sheets, have reasonable relationships with stakeholders and some awareness of ESG issues. These companies do not exhibit ESG risks necessarily, but at the same time are not best in class companies with the potential to maintain market leading growth. • ‘Best-in-class’ (score of 7 – 10): Companies that have strong corporate governance, quality management, strong balance sheets, good relationships with stakeholders and a good awareness and management of ESG issues. These companies should be able to attract the best employees, to continue to lead the industry in terms of productivity, have strong supply chain links, acting as the ‘supplier of choice’ for customers, and are mindful of their environmental impact. <p>The Fund will generally only invest in companies that are rated as ‘neutral’ or ‘best-in-class’.</p> <p>The Investment Manager performs its own analysis of information provided by the companies, including information provided in company sustainability reports and other relevant company material. Third party research is used by the team as a secondary consideration, and generally provides a source of challenge or endorsement for their own view.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund’s portfolio are rated against the sustainability criteria. The Fund will invest at least 75% of its assets in companies that</p>

Investment ideas are identified using proprietary fundamental stock analysis and top down assessment of the thematic drivers affecting healthcare demand and provision. The Investment Manager's analysis seeks to identify companies that are well placed to develop products or services that address both the rising demand for healthcare and the need to ensure that healthcare systems are more efficiently managed to ease rising cost pressures.</p> <p>The Investment Manager also uses a proprietary tool to assess the ESG performance of companies before they are selected for the Fund's portfolio. Individual names with poor ESG performance may be included in the portfolio if the Investment Manager believes that a company is on track to improve its ESG performance.</p> <p>Other sources of information are also used for this analysis including information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schrodgers' other proprietary tools and third-party data.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of companies worldwide.</p>
